

# **INTERNSHIP**

I had the honor of doing my 2024 summer internship with Around The Corner Productions <https://atc-p.com/>.

Over the years I've learned a lot from Eric Braley. Whether it's in the classroom or on the court broadcasting, he is someone I go to for advice and he is someone who is a huge tool to my success.

What is Around The Corner Productions?

A video production company that manages and produces video projects from concept to completion.

What did I do at Around The Corner Productions?

- Managed projects with other team members
- Learned how important client relationships are in this profession
- Discussed and wrote about the importance of video on social media platforms for businesses

Something I really took away from this opportunity was working with clients. As a video production company, you are consistently putting in effort to please your client. I learned that a big part of the media industry is to listen. As a creator, expressing your ideas, goals and visions takes a lot of explaining to do. Once your head is in a specific place, you want to create the perfect shot. But, I think listening to clients and letting their ideas affect you in a positive way is something that really opened my eyes.

Here is a sample of some work I put in this summer:
